

*Let's Plan a Trip!*

*List 5 types of activities that your family likes to do?*

*List 5 free activities that you can do in your hometown?*

*List 5 things you can do in your county?*

*Which of these things can you do as a day trip but are outside of your home county?*

*Which of these things require an overnight trip?*

*Pick one activity to do. List the expenses you need to cover to go on this trip.*

*How much money do you need to do this activity?*

*Do you have this money available as cash? Do not count money you will be using to pay bills with.*

*Yes? Set a date and make it happen. Take pictures and journal your day so that you can look back and remember how much fun you had.*

*No? How long will it take you to build up the funds you need in order to take the trip without going into debt? Are there any extra jobs you can do? Is there anything you can sell?*

*Brainstorm how you can build up the funds to pay for your trip:*

*Make a list of the next 5 mini-trips and dates and repeat this exercise for each one. Have fun!*
